Jugando con sonidos y palabras

Orientaciones generales

El juego de materiales consta de tres elementos:

1. **Rompecabezas:** relacionan letra, palabra e imagen.
2. **Tableros y tarjetas de palabras:** unen palabra con imagen.
3. **Fichas de letras:** forman palabras.

Cada uno de los materiales desarrolla habilidades de conciencia fonológica y principio alfabético.

Organización de los juegos:

1. **Rompecabezas:**
   - Se componen de 16 hojas. Cada hoja contiene seis tarjetas punteadas de diferentes tamaños para desprender.
   - Cada letra se conforma por tres piezas: la letra, una imagen y la palabra que nombra la imagen.

2. **Tableros y tarjetas de palabras:**
   - Se conforman por seis tableros y dos hojas con tarjetas de palabras para desprender.
   - Se asocian los tableros y tarjetas que contengan el borde del mismo color.

3. **Fichas de letras:**
   Se conforman por 105 fichas de vocales y consonantes. Estas se distribuyen en tres páginas con 35 fichas punteadas para desprender.

Sugerencias para el docente:

- Orientar a los estudiantes para organizar los juegos utilizando las bolsas plásticas con cierre hermético que se encuentran dentro del sobre.
- Elaborar un recipiente para guardar las piezas de cada material. Cada juego debe mantenerse en su recipiente, después de utilizarse, y así evitar que las piezas se extravíen.
- Usar de preferencia materiales reutilizables para construir el recipiente.
